

# Recommendation

Andreas thinks visual and always delivers the unexpected and it's always Fantastic!

He embraced all tasks with great energy, taking ownership to see he's work completed on time and above expectations. He has an expert hold of media and design tools, and when faced with a new problem he is quick to find the answers and get on with it.

Andreas was with our International product design team for 4 weeks, building a graphic world around what we do. Unfortunately our company was not in a position financially to extend he's contract. He will be very much missed, for he's creativity, work ethic and upbeat personality, we wish him the best for he's future career.

Best regards

**Bernard Hartigan**
